Ottawa, 11th. NOVEMBER, 1896.

Dear Sir:-

Being desirous of including a notice of your organization and operations in the Seventh edition of our CANADIAN MINING MANUAL now in preparation we would take it as a great favor if you will be so kind as to fill in as far as you can the information asked for on enclosed form and kindly return same to us by an early mail.

The MANUAL is published annually being a 600pp. book handsomely bound and illustrated with over one-hundred half tone engravings of Canadian mines and smelting works, portraits of prominent mining engineers and managers and contains a mass of serviceable information and statistics respecting the mineral industries of the Dominion.

We should be pleased to receive the details asked for respecting your operations and to be favored with your subscription to this standard mining publication.

We are,

Yours faithfully,

Dear Sir:-

In the Seventh Edition of our CANADIAN MINING MANUAL now in preparation it is our purpose besides illustrating the mines at present in operation throughout Canada to reproduce a large number of half tone portraits of our mine-managers, engineers, analysts and others prominently identified with the development of Canadian mining affairs.

With this object in view we have written to ask if you will be so kind as to favor us with a recent photo of yourself, which we will return to you if necessary.

Trusting your favorable consideration and thanking you in advance,

We are,

Yours faithfully,

Ottawa, 7th. JANUARY, 1897.

J. M. HARRIS, ESQ.,
SANDON, B. C.

Dear Sir:-

Please accept best thanks for your courteous favor under date of 31st. ult. and very full information conveyed respecting the Star and Reco Companies which we will have great pleasure in incorporating in the MANUAL.

We also thank you for your courtesy in favoring us with the use of the photos which we will take good care of and return when through with.

As to the order for the MANUAL we desire to point out that this is a 600 page book, handsomely bound and illustrated and the selling price is \$4.00. We mention this because perhaps you have misunderstood its character when ordering ten copies. Of course on an order for a quantity we would be pleased to reduce the amount per copy to \$2.50 a piece - but of this we should be glad to be further advised before entering your order.

As the MANUAL will not be printed and distributed before the 1st. of May shall we insert your card in the REVIEW which has a very large circulation all over Canada and in the States. For a one and a half inch space we should charge you but fifteen dollars per year. =

Kindly advise us on these points and again heartily thanking you for your courtesy,

We are,

Yours faithfully,
THE CANADIAN MINING REVIEW.

SANDON, B. C.

Dear Sir:-

Under separate cover to-night we take pleasure in sending you the Seventh Edition of our CANADIAN MINING IRON & STEEL COMPANIES MANUAL.

This edition as you will see is considerably enlarged over the preceding volumes and is embellished by a very large number of beautiful half tone illustrations of the mines and mining men of the Various Provinces of the Dominion while the reading matter has been arranged in a concise and handy form for reference respecting the mines and mining companies doing business in the country.

Invoice covering cost of same is enclosed and we should be pleased to receive your remittance when convenient.

Dear Sir:-

Being desirous of incorporating in our illustrated supplement as many views of prominent mining undertakings as possible we have written to ask if you can send us any photos of your works above or below ground. These will be returned to you (if necessary) after their reproduction by our engravers.

Needless to say there will be no charge to you for their reproduction & our only desire being to show the progress being made in our mineral development.

Awaiting your reply,

We are,

Yours faithfully,
